

Windows 10 Magic!

A Fun Guide to Your Computer

What is an Operating System?

- ★ An Operating System (OS) is like the boss of the computer!
- ★ It helps the computer parts talk to the programs.
- ★ The most popular OS is Windows.
- ★ Some OS are for one person, and some are for many people!

Meet the Desktop!

- ★ When you turn on your computer, the first screen is the Desktop.
- ★ It looks like a big, fun workspace.
- ★ It holds all your important things, just like a real desk at school!

 Windows 10 Desktop Screen

Amazing Icons

Files

Data stored in the computer is a file. Each file has a name, like your homework document!

Folders

A folder is like a bag. It holds a group of files or even other folders to keep things tidy.

Programs

Programs are software that let you do tasks, like MS Paint for drawing or games for playing!

The Helpful Taskbar

- ★ The Taskbar is the long bar at the bottom.
- ★ Start Button: On the left, it opens a menu to find apps.
- ★ Middle Section: Shows programs you are using right now.
- ★ Notification Area: On the right, shows the time and date!

 Windows 10 Taskbar Close Up

Make It Yours!

Wallpaper

Change your background picture to something you love, like a beautiful forest or a pet!

 3D Bubbles Screen Saver

Screen Saver

An animated image that moves when you leave the computer resting for a little while.

Time to Sleep!

- ★ Computers need rest, just like us!
- ★ Click the Start button on the taskbar.
- ★ Click the Power button icon.
- ★ Select Shut down and wait for it to turn off safely.

 Windows Shut Down Menu

Snap Recap!

- ★ Operating System: The boss that manages the computer.
- ★ Desktop: The very first screen you see.
- ★ Icons: Small pictures for Files, Folders, and Programs.
- ★ Taskbar: The long bar at the bottom with the Start Button.
- ★ Personalize: You can change the Wallpaper and Screen Saver!
